

Amendments to the Drawings

Objection to Fig. 16, filed on 05 November 2003, has been noted by Applicants. The Amendment After Final Rejection including Fig. 16 was filed by facsimile. The facsimile transmission resulted in the poor line quality and non-uniform paper size, as objected to by the draftsman. In conformity with the draftsman's objections, a replacement drawing for Fig. 16 is included at the end of this document.
